**RE: County Revocation of Larson Permit Letter April 10, 2013**

Dear Board of Commissioners:

The lack of response to the Larsons' protest letter from this office dated April 15, 2013 constitutes the County's acknowledgement of the impropriety of the revocation of the fertilization permit, without due process. By this letter, the Larsons appeal the revocation decision as an abuse of discretion, an arbitrary and capricious governmental decision, and an unlawful interference with the Larsons' County approved and permitted farming operation.

Yours truly,
